Turn out To-night!

This evening is the time for the regular meet ing of the Scott Club. Let us have another good turn out. Good speakers will-be in attendance among them R. W. Waight, Esq., of Waukesha The GLEE CLEE will be on hand, and enliven the meeting with some of their spirit stirring songs. PARADE WITH FULL BANES!

The Libellers of Gen, Scott.

A MISTARE. The Whig papers tell us that Scott "never yet led to deleat." History tells us that he led to a most disastrous and discreditable de-feat at Queenstown Heights, on the 13 of Octo-her, 1815. In that buttle he was not only defeated by a greatly inferior force, but he was also taken prisoner by the British; and with him the British took more prisoners than they had men in the full."

The above choice specimen of Loco Foco arguments is taken from the Erie (Pa.) Observer, staunch supporter of Prezon democracy. In its desire to blast the fair fame of Winfigur Scott this reckless party organ does not hesitate to falsify history and to cast a foul reproach upon the American arres. Never was such represed less deserved. The battle of Queenstown memorable display of American valer. Gen. Scorr, striving upon the field, as a Volunteer, some time after the action commenced, was invited to 600 men, regulars and militia, under his order.-The British were nearly 1300 strong. Neverth less the Americans, inspired by Scorr's presence and example, held their own gallantly against the repeated attacks and superior forces of the emy, until one-half of their number had been killed or disabled. Then, after a display of the most desperate valor, finding farther resistance cut off from all hope, or chance o succor, Gen. Scorr surrendered his little band, reduced to 293 all told, to a British force of over one thousand. This it is, that an American paper, for party's sake, stigmatizes as a " disastron and discreditable defeat !"

A Mare's Nest.

The Banner is credibly informed that Mr. HART of Wauwatosa, told somebody that he supported Gen. Scorr in the conviction that he would use his influence to repeal the Naturalization laws and make the right of voting dependent upon a residence of 21 years in this country. The Ban ver, we are very sure, don't believe that there i the remotest possibility of Gen. Scorr's recom mending any such change in our laws, or any party's attempting to bring it about. But it doubt less thinks it a good thing to alarm the fears and atir up the prejudices of some of its less refle countrymen, on this question, and thus deter them from voting for Gen. Scorr. Accordingly it appeaks to them in this wise :

"Our German readers will see by this declara-tion of a candid and trank Nativist, that unde the Scott Flag we are to be dishonored Slaves an-working machines de. de."

This is more gammon; for, in the first place some of the readers of the Banner know, if its editors do not, that the Constitution of Wisconsinvoting, and that nobody dreams of altering ou Constitution in that respect. And in the second place Gen Scorr has thus emphatically recorded nion, and volunteered a pledge on this identical onestion:

Certainly it would be impossible for me to recom-mend or support any measure intended to exclude them (foreign-born chitzens) from a just and full participation in all civil and political rights non se-cured to them by our republican lanes and institu-tions.

Of course, it is not the Banner's cue to tell its readers the trick in this metter; so it will doubtless persist in holding up these "raw head and bloody bones" to frighten them from supporting

The Buffalo Rough Notes says it is a corions feature about this campaign, that the Lowhile the Whice like both !

From the Buffelo Courier. River and Harbor Improvements.

On Friday last, the House of Representativez pessed the bill making appropriations for the improvement of certain harbors and rivers, by a vote of 103 to 76—a majority of 28.

This bill, unlike the one got up during Mr. Polk's Administration, is a fair one—a division of the public money to help meritorious projects, and looking to the actual needs of commerce and navigation. The whole sum appropriated by it, is \$1.550,000.

igation. The whole sum appropriated by it, is \$1,550,000.

It is a democratic measure—matured by democrais, reported by a democrat, and passed by the democratic majority in the House of Representa

The article, of which the above is a part. was

first published in the Buffalo Courier and is now making the rounds of the Western Pierce Press. It is one of the many characteristic devices which these honest organs employ to d, hude their readers into the belief that Pierce Democracy is friendly to River and Harbor Appropriations. Now we are willing to test the question by the vote in the House of Reprosentatives on this identical bill—s vote, by the way, which not a single Pleace parameter. per in this State has yet dared to lay before its readers! On that vote Two-THIRDS of the demo crats either dodged the question, or voted no .-THERE-FIFTHS of the Democrats present and vo ing, voted in the negative; and among those nays vere Mr. Pierce's friends and representatives, the two democratic Members from New Hampshire and the fate of the bill depended upon democrati votes alone, it would have been defcated b WENTY-Two votes. Had it rested with the Whig fembers solely, it would have passed by rorry najority! These facts are matters of record. "Here she goes and there she goes,"—Let it be remembered, that in the recent effort of the more liberal portion of the people of New Hampshire, to abolish the bigoted religious let, engrated into her constitution by the Federalists, and which Gen. Pierce denounces as a "stigma" of her fair fame—every Democratic paper in the State advocated its abolishment, while every Whig paper sustained the lets.—Morning News.

On Thursday, the Nows published a lengthy and labored article, denouncing the Whige for attempting to "mingle religion with politics," and endeavoring to introduce the new element of "deominational prejudices into party contests."---Testerday, the Nors engages in this very same buiness itself, and to prove its proficiency, starts with the above notorious falsehood. The Anti-Catholic Test in the New Hampshire Constitution has been uniformly opposed and voted against by the majority of the Whig voters of that State, as often as the question has been submitted to the people, and would long since have been expunged t Democrats had not voted to retain it.

Mousine Owis.-The "grave and reverend" enators who offered and urged the resolution, calling for an accurate statement, in dollars and cents, of the money paid out of the U.S. Treasury to WINFIELD SCOTT for his forty-five years of public ervice, his honorable scars and his glorious vicservice, are in a fair way to win a notoriety as mar-ked and enduring as they could wish. With the exception of a few reckless party prints, who hope to make a little political enpital for Pierce, by parading in capitals the amount of pay received during these 45 years of public life, by Gen. Scorr, ne whole press of the Union cries shame upon the authors and abetters of this miserable piece of political pettifogging. Commodore Stockton of New Jersey, a Democratic Senator, tried to save his party associates and the country from the disgrace and mortification of such an inquiry, insistng that the whole matter was "beneath the dignity of the Senato" and moving that it be laid on be table. COMPORT FOR THE APPLICATED.—The Sheboygan Journal attempts to bolster up the sinking hopes of the Pierce men in that quarter by the following promise of "aid and comfort" from disaffected Whigs:

Mr. Webster and Mr. Fillmore, and their friends throughout the country, to aid and assist in defeating General Scott. They look upon his nomination as an insult to, and gross fraud upon, the Union-loving and more sensible portion of the whig party; and so it was.

Was it indeed ? Suppose you tell us how. "The Union-loving and sensible portion of the Whig party" have an idea that if any man now living ed the confidence, regard and gratitude of the Geth. GEN. PIERCE ON HARROR APPROPRIATIONS.—Gen Pierce is one of the most liberal men in the Uni-ced States, touching harbor appropriations.—De-troit Free Press.

People's ideas about "liberality" differ widely. Gen. PIRECE never in his life voted one dollar for "harbor appropriations," and yet the Free Press pronounces him "one of the most liberal men in the U.S." on this question! He may be, as his presses are, extremely "liberal" in the way of promises and professions. But not an act or vote of his life can be shown which indicates any thing else than the most unmitigated and unrele ing hostility to Internal Improvements. Shall uch a man obtain the votes of the West?

The Banner of last evening, stigmatizes en. Scorr as a quondam Church burner, and Anti-Catholic, and repeats the off refuted faisc-hood that the Whigs of New Hampshire voted in a body for the religious test in the Constitution of that State, while the Democrats all opposed it. The Banner's respect for Catholics, and the Catholic creed, has been so strikingly manifested, during the past few weeks, in its calumnious and brutal assaults upon the Rev. Dr. Ivrs and other minstors of that Church, that no one will venture to mestion the sincerity of its strictures upon Gen. Scorr!

THE PROTECTIVE POLICY --- (3.)

We continue this morning our extracts from the ecorded declarations of the Presidents in favor of Protective Policy towards Home Incustry-Those which we give to-day are from Anams and Jackson, the latter styled the embodiment, as Jefferson is the Apostia, of "Democracy." It will be seen that Gen. Jackson's opinions upon the subject were in precise accordance with those of the Whigs, and in direct opposition to those of the modern school of "Democracy:"

the modern school of "Democracy:"

"The great interests of an agricultural, commercial, and manufacturing nation, are so linked in usion together, that no permanent cause of prosperity to one of them can operate without extending its inducence to the other. "The power to impose daties upon imports originally belonging to the several states. The right to adjust these daties, with a view to the encouragement of domestic branches of industry, is so completely identical with that power, that it is difficult to suppose the existence of the one without the other. The states have delegated the whole authority over imports to the general government without limitation or restriction, saving the very inconsiderable reservation relating to the inspection laws. This authority having thus entirely passed from the States, the right to exercise it for the purpose of protection does not exist in them; and, consequently, if it be not porsessed by the general government, it must be extinct. Our positives system would thus present the anomaly of a people stripped of the right to fosier their own industry, and to counteract the most safish and destructive policy which might be adopted by foreign nations. This surely cannot be the execution induspensable power, thus surrendered by the States, must be within the scope of authority on the subject expressly delegated to Congress. In this conclusion I am confirmed as well by the opinions of Presidents Washington, Jefferson, Madison, and Mouroe, who have each regality recommended this right underlike Constitution, as by the aniprom practice of Congress, the continued acquiescence of the totales, and the general understanding of the people."—Jackson's Mad Annual Message.

The following is an extract from a letter of Gen. Jackson, to Dr. L. H. Coleman, N. C., dated Jackson, to Dr. L. H. Coleman, N. C., dated Washington City. August 26, 1524:—

A mong the officers of the Coshocton Scott Club, we are happy to see the name of Charles McCloscov, Mr. Mrc has always been a staunch Democrat, having never voted a Whig ticket in his life. He served under Scott during the Mexican. War, and eren the ties of party could not induce him to desert his glorious old leader. Few men have had more opportunities of knowing how Scorr treated his soldiers. He fought ar Palo Alto, Resaca de la Palma, Montrere, Cetro Gordo, Contreras, Churubusco, Mclino del Rey, and Chapultepec; besides assisting at the bombautiment and capture of Ven Cruz. He was wounded in several engagements and in the last terrible encounter at Chapultepec; where he was one of the "forlorm hope," he was struck shoultaneously by three musket bails and a grape shot, and taken up for dead. During six months he lay in the hospital, where hore a long time his life was despaired of. We have heard him tell how that great man visited the couches of his sinking spirits. We have heard him tell how that great man visited the couches of his soldiers, all learing the dying moans of his soldiers, and watched over them with all the affectionate solicitude of a fond father.

A gentleman who has recently spent some weeks in Northern Inidana, engaged in buying up core, passing through this city on his way eastward, was asked by the Denroit operator if he heard are hurrals for Scott while in Indiana—"No sit," I did not—I heard some faint hurrals for Pierce and King around the greceries, but no hurrals for Scott—but at the farm-houses, and among the men of whom I brought my core, I found time out of every ten ready to voto for Scott, Locos, Free-scilers and all, but they did not hurrals for Scott."

With less apparent and outward embusiasm, it is believed that more thorough, radical and extensive changes are going quietly on than have unless place during any one canvass since 1340.
